DECEMBER PRICE INCREASES.

Dear customer,

Given the current market conditions we know how important it is that you are provided with advanced notice of any significant price changes. We are therefore advising you of some price increases on products that are planned to come into effect on 1st December 2022.

As always, we are working hard behind the scenes with our suppliers to minimise all increases but we wanted to let you know the current projected increases to allow you to plan accordingly.

Product Category	Price Increase
PIR Insulation	Up to 14%
Abrasives	Up to 6%
Clay roofing tiles	Up to 18.9%
Concrete roofing tiles	Up to 17%
Bricks	Up to 18.9%

Please note, the above increases do not apply to all products within the categories and only highlight the most relevant price increases.

Why we're increasing our prices.

As with previous months, unfortunately our suppliers continue to experience extreme cost price inflation. Most of these increased costs are the result of increased energy, packaging and transport costs, as well as the cost of the raw materials used in the products themselves.

Profit Checker.

Using the Build Aviator estimating service not only saves you time and helps you win more work but also ensure you stay on budget through the build. Once you've won the job after using Build Aviator the Build Kick-Off process begins for free. Closer to the build start date, Build Aviator will make sure any new information is put into the new estimate and update it with the latest material prices so you can see any difference in profit. A comparison report detailing this will be generated to help you have that conversation with your client.

Keeping up to date.
