KITCHEN GUIDE 2023

THE JEWSON DIFFERENCE.

Family life revolves around the kitchen. From early morning breakfast to late-night laughs and last-minute homework. That's why for over 30 years, Jewson has refined its kitchen offering to provide an unbeatable one-stop-shop for both trade and public. Whatever your dream kitchen looks like, Jewson has a huge range of kitchens and accessories to suit every budget and taste.

QUALITY CRAFTSMANSHIP

There's no compromise on quality. Our entire range is as stylish as it is durable. All our kitchens and related accessories will withstand daily life and then some. In fact, we're so confident in the quality of our products, our kitchens come with up to a 10-year guarantee.

FREE DESIGN CONSULTATION

To help you get the most out of your kitchen and budget, we offer free design consultations with our Design Consultants. They will take the time to understand your requirements and design a kitchen that suits your budget and needs.

KITCHEN SHOWROOMS

See what your dream kitchen looks and feels like in one of nearly 50 kitchen showrooms nationwide. Find your nearest at Jewson.co.uk

BUILD AVIATOR

The pressures of estimating a project can be time consuming and difficult. Build Aviator offers the most effective and comprehensive estimating service available. It provides an accurate and efficient estimate of materials, labour and plant tool hire required, using products that are locally available. This service is extremely beneficial for new-build projects, extensions and existing conversions.

For more information visit Jewson.co.uk/build-aviator or call 01359 256311.

PLANNING 6

We've put three simple steps together to help you make your dream kitchen a reality.

MODERN 22

Sleek surfaces and sumptuous curves define the visual language of our Modern collection.

DOORS & HANDLES 72

Choose from a range of doors and handles to complete your look and complement your kitchen.

CLASSIC 52

The pure elegance of our Classic collection incorporates the very best of what the shaker and traditional collections have to offer.

COMPLETING YOUR KITCHEN 84

Select from a wide range of finishing touches to create your perfect kitchen and make a real design statement.

Whether you're planning a kitchen refresh, starting again with the family in mind, or building from scratch, follow these three simple steps to make your dream kitchen a reality.

1. RESEARCH & PLANNING

INSPIRATION

Inspiration is everywhere – and not just in kitchens. Look on Instagram, Pinterest and in magazines. Take photos in restaurants, friend's kitchens and in shops. If you see something you like, save it and make a mood board (Pinterest is a great online tool for this).

Download the Instagram app or view online at [instagram.com](https://www.instagram.com)

Make an online inspiration board at [pinterest.com](https://www.pinterest.com)

View our range of kitchens at [Jewson.co.uk](https://www.jewson.co.uk)

SET YOUR BUDGET

The early stages of planning your dream kitchen are exciting and understandably so. But it's important to start with both feet on the ground – with a budget. Have a number in mind and stick to it.

HIRE A LOCAL BUILDER

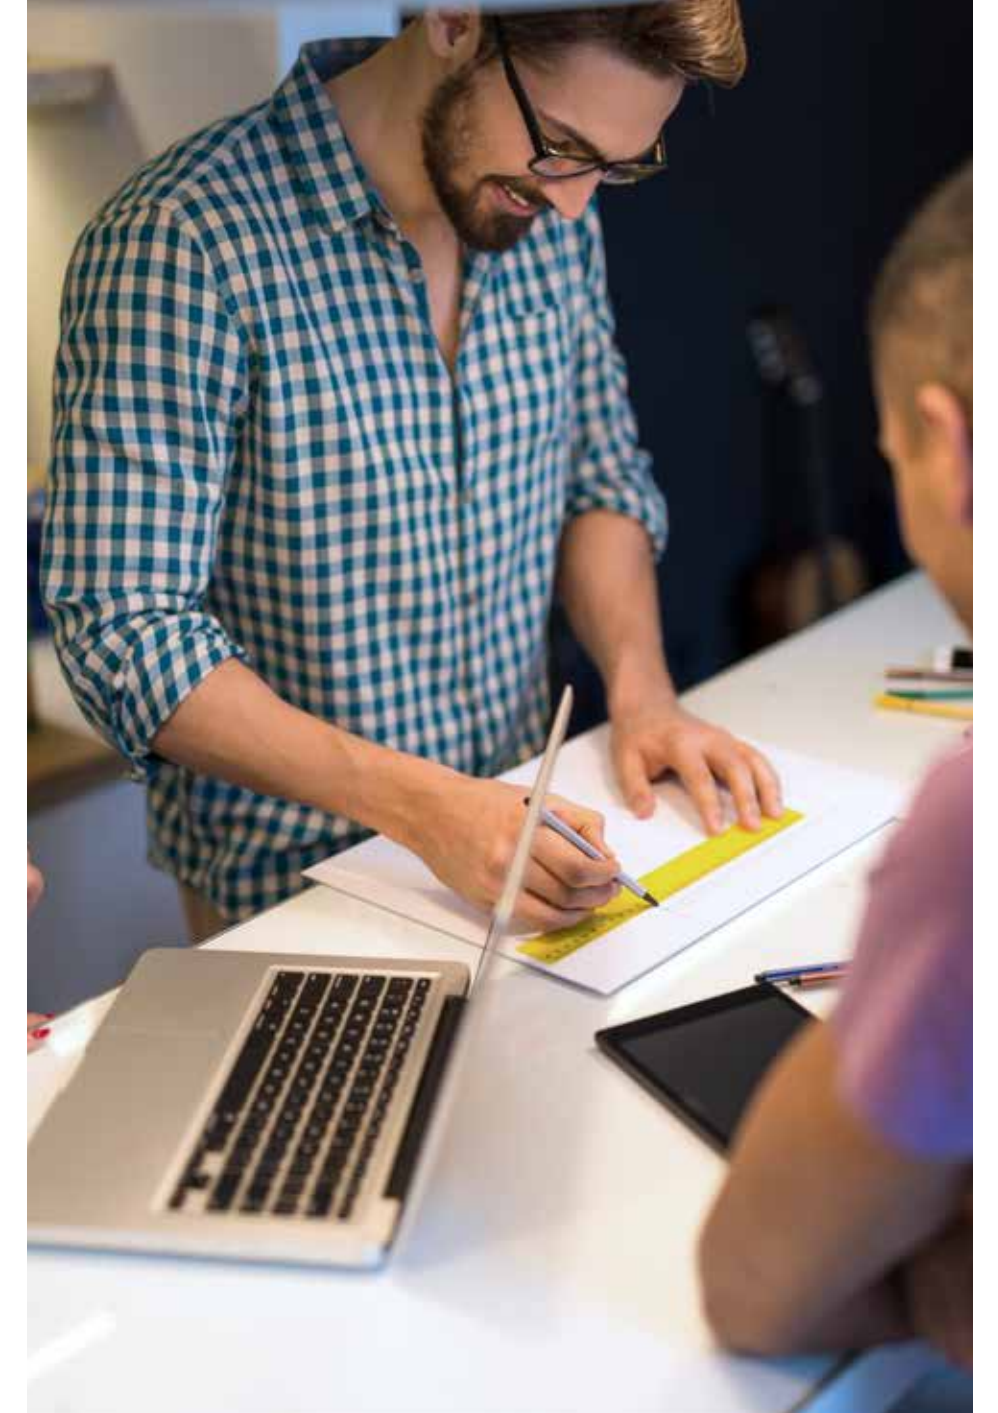

Fitting a kitchen can be tricky, which is why we highly recommend finding a local tradesperson. Their knowledge and expertise will be invaluable.

If you need help finding a professional kitchen fitter ask friends and family, use a recommendation site such as [checkatrade.com](https://www.checkatrade.com) or visit [bikbbi.org.uk](https://www.bikbbi.org.uk) for fitters registered with the British Institute of Kitchen, Bedroom and Bathroom installation.

MEASURE

If you enlist the help of a tradesperson they will do this for you – if not, measure the space your kitchen currently takes up and where it could expand into. Don't forget to measure doors, walls and windows too. The more measurements you take, the better equipped you are to design a kitchen that suits your specific needs.

TIP. Note the position of the plumbing and electrical points. Their location will be the key to planning the layout of your kitchen.

Winslow Black

BACK TO BLACK

Make a statement with all black kitchen doors or mix with white or light grey for a timeless monochrome look.

Our selection of appliances, sinks, taps, worktops and handles means we have what you need to go bold with black, add black accents throughout, or mix with metals such as copper for dramatic glamour.

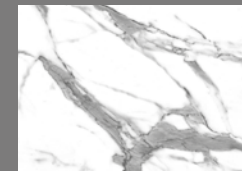

Alloy Herringbone Cement Splashback

INSPIRED DESIGNS

There's something for everyone with our range of splashbacks and tiles.

Take inspiration from natural elements such as marble and stone, or feature geometric or vintage designs in your home.

For a durable, fire resistant option choose from our selection of aluminium splashbacks.

Lucido Atlantic Green

BEING GREEN

Often connected with wellness and renewal, green is an uplifting choice for any kitchen.

The green colour pallet brings life to your space and carries the outdoors inside for an added sense of serenity.

TANTALISING TEXTURES

Conjuring a personalised sense of style.

Add depth and interest to your space by choosing doors and finishes with textural detail.

Whether you opt for soothing natural characteristics like Driftwood and Walnut, the robust finish of concrete and exposed brick, or incorporate metallic elements, textured finishes will elevate your look.

Baden Icon Textured Dark Stone

BE INSPIRED

Personalise your perfect kitchen design with our painted to order colours.

Painted to order is available in eight of our By Design kitchen ranges.

Rutland Atlantic Green

Oslo Cooks Blue

PAINTED TO ORDER DOOR CHOICES

PAINTED TO ORDER COLOURS

LAYOUT

When redesigning your kitchen, think about how you move around it. Where do you plan on having the fridge, sink and cooker? These are the three areas you use the most, therefore it's good to apply the Triangle Concept to your kitchen.

The Triangle Concept is easy to implement. You simply place the fridge, sink and cooker in locations that form the shape of a triangle. Spacing them out equally will allow easy, seamless access to each. It doesn't matter if your kitchen is a galley, U-shape, L-shape or open plan. The Triangle Concept still applies.

2. CONSIDER & SPECIFY

What will give your kitchen the wow factor? Creative use of lighting? Underfloor heating? Top of the range accessories and appliances? This is where you need to think about those finishing touches.

View our range of kitchen accessories, including flooring and heating, at jewson.co.uk

Baden Icon with Worktop, Cabinet and Plinth Lighting

LIGHTING

The lighting you choose will define your kitchen. It can set the mood or become a feature. Think about what you want your lighting to do. Be a focal point? Light a workspace or simply illuminate a room low on natural light?

WALLS & FLOORS

Walls and floors are a canvas to add your personality. We have a wide selection of flooring options including: hard-wearing tiles, luxurious underfloor heating, natural wood and the all-round brilliance of new vinyl technology.

PLUMBING AND HEATING

The positioning of your plumbing and electrical points will define where your cabinets and appliances are located. Moving the sink for example is possible, but may impact your budget.

Alloy White Marble Splashback

MAKE AN IMPACT IN YOUR HOME

Choosing the right product can help create a better environment in your home and also benefit our planet.

BerryAlloc Terrazzo Light Grey

Malmo Moderna

SUSTAINABLE SELECTION

Malmo™ Luxury vinyl is manufactured using minimal energy which is from renewable sources.

By Design kitchens are responsibly sourced and our manufacturing sites maintain a full chain of custody to ensure legal and sustainable sourcing.

SMALL CHANGES, BIG IMPACT

Hybrid working? Consider low decibel appliances in your kitchen to minimise distraction in an open plan living space. Save water (and money) by choosing an energy-efficient, dishwasher. The increased temperature kills bacteria effectively, helping to keep your home healthy.

Improve the air quality in your home with extraction appliances. An efficient extractor will remove steam, cooking odours, grease and smoke from your kitchen without intrusive noise.

Door mounted and pull out recycling bins ensure your aesthetics remain uninterrupted with effective recycling systems hidden behind the doors.

The right refrigeration choice helps reduce food waste in your home. A salad crisper drawer helps lock in food freshness.

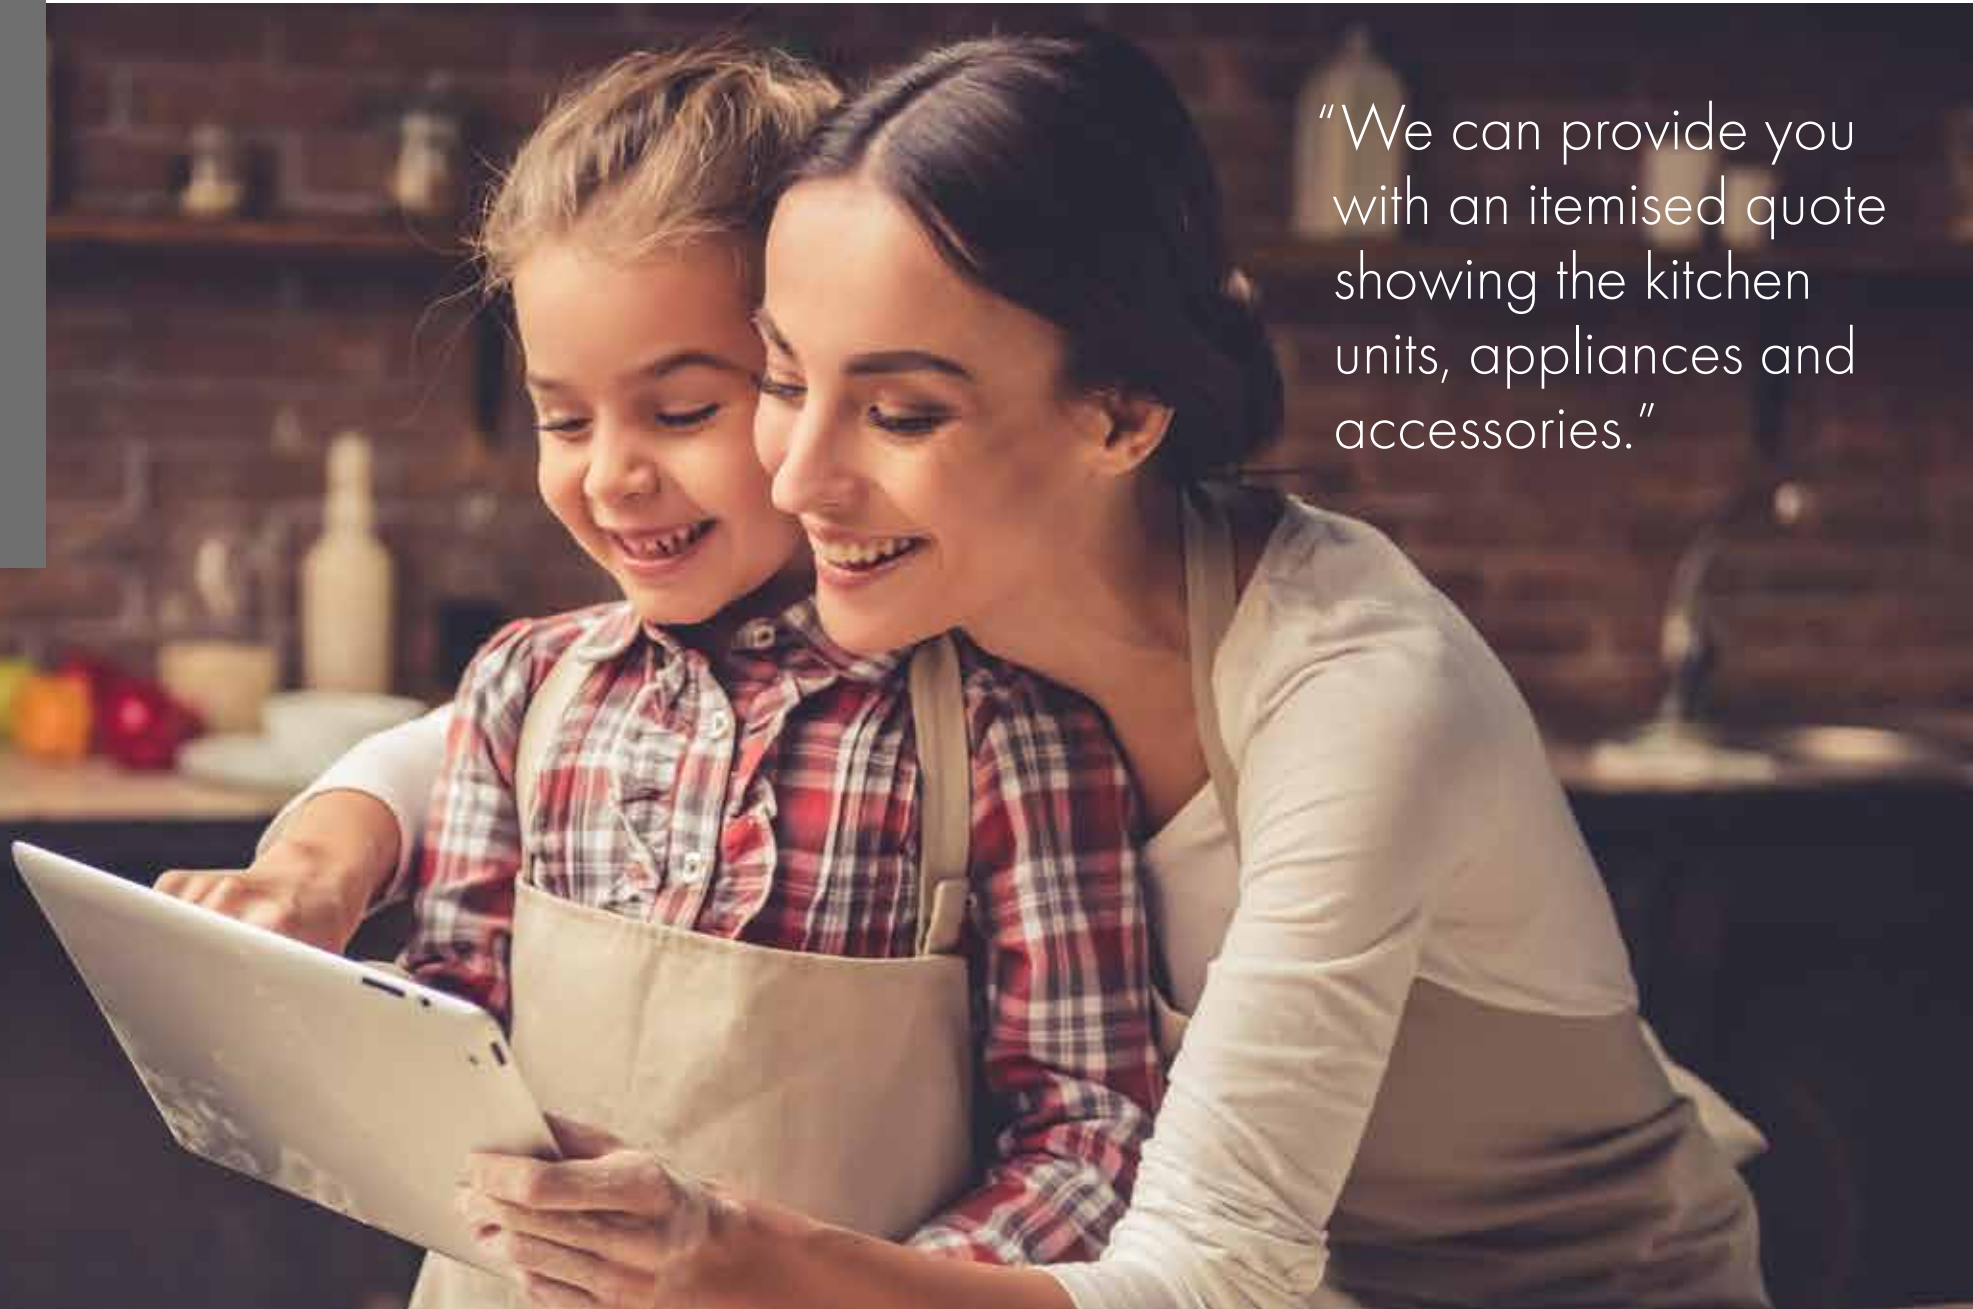

Installing a food waste disposer is one way to avoid landfill.

3. DESIGN & QUOTE

Once you have your measurements, decided on a layout and picked a style and accessories, we can bring your idea to life in a 3D, 360° panoramic visual. This will give you an idea of what your kitchen will look like and how you will use it.

TIP. Refer to your original budget. Have you gone overboard or is there budget to add in that 'dream' accessory you originally ruled out?

"We can provide you with an itemised quote showing the kitchen units, appliances and accessories."

FREE DESIGN CONSULTATION

If you'd like a helping hand in the design, layout and styling of your kitchen, we can provide you with your own personal Design Consultant. They can help you every step of the way. Starting with a visit to your home, they will take measurements, discuss your budget and take the time to understand your wants and needs for the working space. Alternatively, they can work from photographs you supply and provide a remote virtual design consultation.

The next step will be to produce a CAD drawing and high-quality 3D renders of your kitchen, to help you visualise the space. At this stage, your Design Consultant will talk you through current trends and styles, as well as samples to make sure individual aesthetic and practical considerations are all catered for. Once you have decided on your dream kitchen, they will work with you and your kitchen fitter to make the whole process as seamless as possible.

DIRECT TO YOU

Many of our kitchens are available with free delivery, with those nifty little gadgets and finishing touches available for collection from your local Jewson branch.

BY DESIGN

OUR KITCHENS

A perfect blend of style and luxury, the By Design collection makes choosing your dream kitchen effortless. The kitchens in the By Design collection are available as self-assembly; ready assembled; or ready assembled premium, with soft-close doors and drawers included as standard. The By Design collection has a kitchen style to suit every home, from classic timber framed to our modern selection for a more adventurous, contemporary look.

1. 66mm void and 3mm removable back panel provides easy installation.

2. 18mm cabinet and shelves in a choice of colours. Certain ranges can also be supplied with cabinet sides to match door colours at no extra cost, eliminating the need for end panels.

3. Fully extendable and adjustable soft-close Afira metal drawer box.

4. Internal depths of 265mm for standard wall units and 495mm for base units.

5. Three-way fully adjustable soft-close all metal clip-on hinges.

6. Adjustable feet with clip-on plinth with optional dust seal.

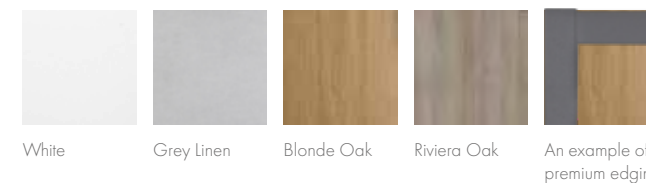

UPGRADE:

Oak drawer boxes available as an upgrade on classic ranges.

PREMIUM UNITS:

15mm back panels on base and 8mm on wall units for excellent rigidity. Robust PVC edging on all cabinet and shelf fronts in a range of complementary colours.

Internal depths of 305mm for premium wall units.

MODERN

Whether you prefer sleek, seamless sophistication or eclectic industrial chic, our modern collection can cater for your personal style. Contrast textures and materials, sultry tones and luxe metallics, for a contemporary kitchen that's bang on trend.

CHOOSING YOUR WORKTOP

We understand that buying a worktop can be a daunting task, but your Design Consultant will help you make the best choice to suit your budget and lifestyle. We offer an extensive range of worktops from laminate to granite in all the latest designs and textures to cover all tastes and pockets. Make sure you ask your Design Consultant to see the full range available.

Laminate

Laminate worktops are the most versatile, easy to maintain and affordable work surfaces you can buy. Fabulous designs and stunning textures mean there is no compromise on style and quality with this incredibly versatile and practical material. Our range includes coordinating and contrasting decorative panels and splashbacks.

Solid Wood

Solid wood worktops are an investment in timeless quality and natural beauty. Crafted from the finest quality hardwoods, you can always be confident about their durability. Pre-oiled oak worktops in clear or stained options provide a practical solution that minimises installation time and offers a chic colour palette.

Compact & Solid Surfaced

We have a number of stylish and durable options for those looking for a solid surface look without the expense, all of which can be installed by your kitchen fitter on site.

Minerva Concrete Haze

Omega Lumiere Uliramatt

Tuscan Espresso Oak Solid Timber

DEKTON, SILESTONE & GRANITE WORKTOPS

Dekton

Introducing an exciting new product in a range of on-trend colours and finishes. Dekton employs ultra-compaction technology, similar to the metamorphic change in natural stone, creating a product with zero porosity, and lacking micro-defects and weak spots. With high flexural strength, it can be installed in thinner material over greater spans. It is entirely stain-proof and it never needs to be sealed, making it a low maintenance surface that is easier to clean and highly water-resistant. It also has the highest scratch resistance on the market so a slip of a knife won't damage Dekton but we'd recommend using cutting boards to protect your household utensils.

Silestone

As the market leading brand in quartz surfaces, Silestone offers beauty in a wide range of colours, extraordinary textures and outstanding properties. A compound made up of 90% natural quartz, it is extraordinarily hard and resilient. Silestone comes with the highest quality guaranteed: Cosentino offers its consumers a 25-year warranty on Silestone kitchen worktops as they operate with the most demanding quality controls during manufacture.

Granite

The original luxury kitchen worksurface, granite is not only a naturally beautiful but a naturally very resilient material which is ideal for kitchens. Each granite worktop is unique with the exact colouring and figuring not found in any other piece of stone so you can be sure that your worktop will be as individual as the rest of your home. Granite is resistant to scratching and can withstand temperature changes, but requires a little more maintenance than man-made surfaces. Regular cleaning and sealing helps to retain its beauty.

Silestone White Storm
with Lucido Dark Walnut

Dekton Trilium and Keon Suede
with Baden Avant Stone and Clay

Gloss Black Granite
with Geneva Platinum

SOLID WOOD WORKTOPS

Tuscan

Crafted from the finest quality hardwoods, Tuscan Solid Wood Worksurfaces combine the timeless elegance of timber with the durability of a high performance worktop. From the luxurious exotic tones of Walnut or Iroko to the modern classics of Oak and Country Beech, Tuscan worksurfaces provide a beautiful solution for both classic and contemporary interiors. In addition pre-oiled Oak worktops in clear or stained options provide a practical solution that minimises installation time and offers a chic colour palette.

Tuscan Fossil Oak

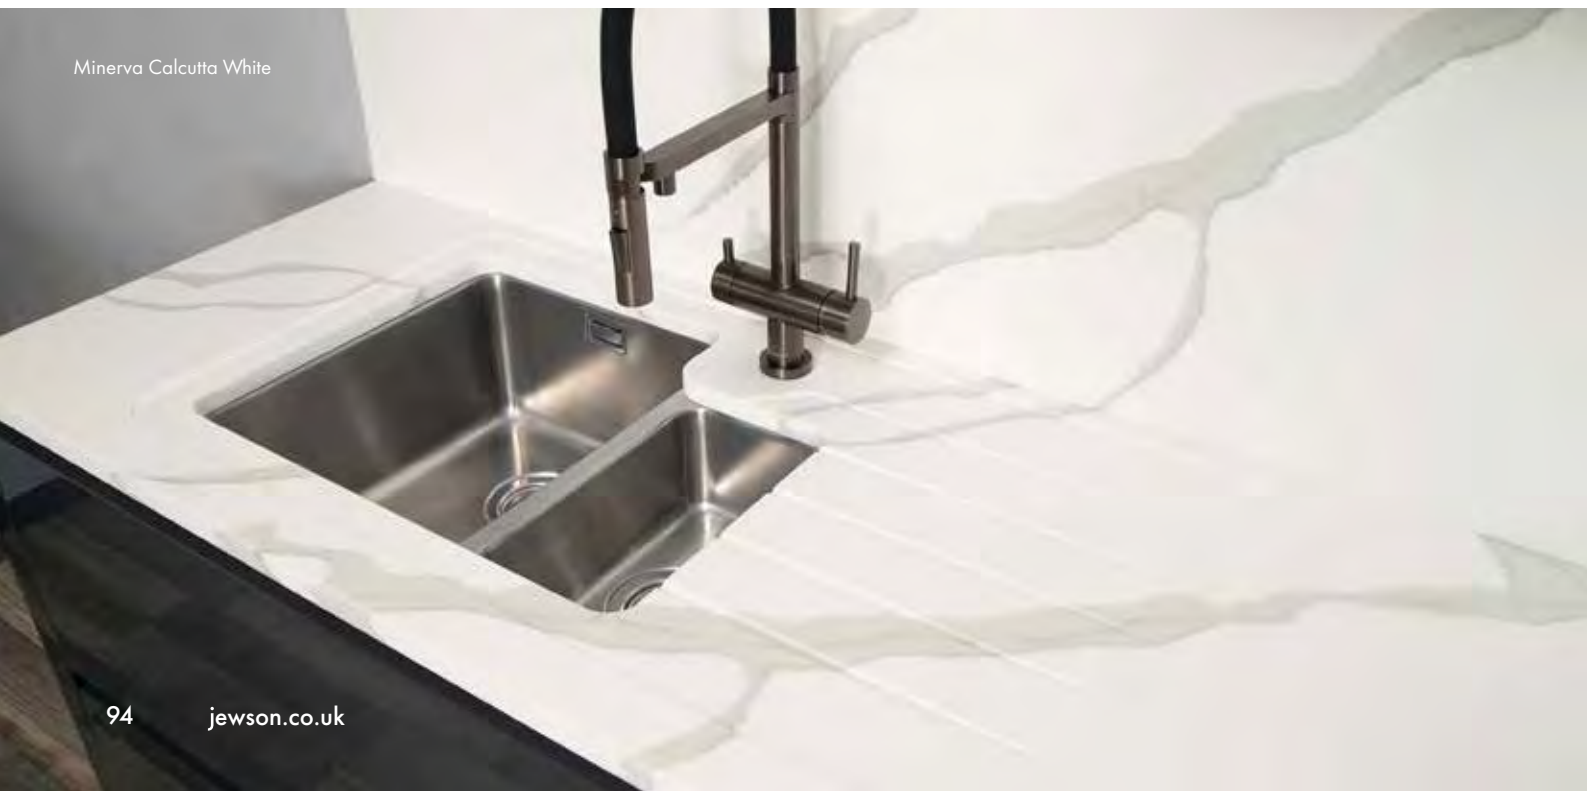

Tuscan Chalked Oak

Tuscan Oak

Maia Lava

Minerva Calcutta White

Zenith Marmo Grigio

COMPACT & SOLID SURFACE WORKTOPS

Maia® designer worksurfaces are both stylish and durable, representing a truly innovative solid surface alternative to natural stone. With colours inspired by the very latest in kitchen designs, all Maia® worksurfaces are heat resistant, impenetrable to dust, dirt and bacteria and are very easy to clean. Available in a variety of modular options, there is no limit to the flexibility of Maia®'s comprehensive worksurface range.

Minerva® provides a practical and solid pure acrylic kitchen worksurface, manufactured using state-of-the-art technology. Delivering a luxurious appearance, cool pleasing touch and robust performance day in, day out. With a 10-year guarantee against manufacturing defects, and imperceptible, seamless joints, style is not compromised for quality.

Zenith

The Zenith worktops range offers a compact laminate that looks and feels like stone or ceramic, ideal for undermount sinks and routed drainer grooves. Zenith worktops come in a range of 20 decors, each with one of eight core colours carefully chosen to compliment the decor.

BY DESIGN

LAMINATE WORKTOPS

Durable and with easy-clean technology, By Design laminate worktops are available in a selection of classic granite and timber style colours, on trend mineral, concrete and terrazzo style finishes and elegant modern metallics. In three formats, 40mm post-formed an PVC edged, slender profile 22mm PVC edged, and premium 40mm post-formed with a smart 4mm radius, the range is complemented with co-ordinating splashbacks and upstands. By Design worktops can be cut to the length required to minimise waste and provide a high quality finish and simpler installation.

40mm Conway Elm with Hereford Charcoal

22mm Antique Bronze Worktop with Meira Lisbon Cashmere

Alloy Geometry Splashback

Omega Mon Valley Ultramatt

Omega Ellis Stone Soft

LAMINATE WORKTOPS

There's a reason why 85% of new kitchens still use laminate worksurfaces. Fabulous designs and stunning textures available from all the leading brands provide style and quality within a budget, allowing you to stamp your personality on your new kitchen. Hard-wearing, easy to clean and scratch-resistant, these worktops make incredibly realistic and durable substitutes for much more expensive surfaces, such as; granite, marble, stone, quartz or wood. It is often impossible to tell the difference between a laminate surface and the real thing.

Splashbacks

Kitchen splashbacks make a great style statement behind a sink or hob area and offer a stunning and speedy alternative to tiles. Add a touch of panache to your kitchen with bold bright colours or geometric shapes. Aluminium splashbacks are fire safe and suitable for use behind any hob.

Great Value

No question, in terms of cost per metre, laminate worktops offer the best value for money.

Durable Material

Laminate worktops are extremely hard-wearing and highly resistant to scratches, cracks and stains.

Hygienic Properties

Compared to other more expensive kitchen worktop materials, including hardwood timber and many stones, laminate is one of the most hygienic surfaces you can choose.

Vast Choice

As a man-made material, laminate is available in an incredible range of colours and finishes, so you're bound to find a worktop to complement the style and colour scheme of your new kitchen.

Low Maintenance

Laminate worktops require next to no looking after – a simple wipe with a cloth and some household cleaner is all that's needed to keep your worktop looking spick and span.

STAINLESS STEEL SINKS

Easy to clean and maintain, stainless steel remains a popular choice across households.

Whether you want a classic sink with a drainer or a contemporary undermount design, our range of stainless steel sinks provides you with a huge range of choice in colour, style and functionality.

Coloured stainless steel can create a bold style and can be paired with complementary taps.

TAPS

Our range of contemporary and traditional options means you don't have to choose between function and fashion.

Single lever taps are the perfect choice for those looking for ease of use and dual lever taps work with contemporary and traditional spaces.

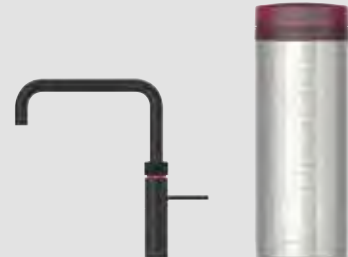

We offer a selection of hot water taps, so if you'd like your tap to offer this function Quooker or Caple hot water taps are worth exploring.

The tap you choose makes a powerful design statement in your kitchen. A colour choice that complements your handles creates a sophisticated, cohesive look whilst contrasting colours create a bold statement.

DOUBLE OVENS

Double ovens create the opportunity to expand culinary possibilities with two cooking spaces. The two cavities help you cook up a storm, providing the space you need to cook multiple dishes at the same time.

Pyrolytic cleaning programmes make cleaning your oven a job of the past, whereas easy clean interiors intend to help you with the task at hand.

Built-in ovens are positioned in a larder tower, whereas a built under oven will be fitted beneath your counter.

Our selection of appliances from Caple, Bosch, Neff and Smeg are sure to meet your cooking requirements.

SINGLE OVENS

Smaller dimensions mean that single ovens require less space than double ovens and can be fitted under your counter or in your larder units.

Modern heating technology such as; MotionHeat+, 3D Hot Air and CircoTherm ensure the even distribution of heat for an improved cooking experience.

Digital features such as Home Connect allow you to control your appliances remotely and intuitive design features such as Slide & Hide improve access around your space.

A selection of our ovens support steam cooking for an extra level of pizzazz on your plate, and Pyrolytic cleaning features make it easier to clean up after your creativity.

If you're looking for one large cavity for your cooking, then a single oven could be for you.

MICROWAVE & COMBINATION OVENS

Compact ovens are smaller than single ovens and many include microwave heating options for increased versatility in your kitchen.

Modern heating technology such as 3D Hot Air and CircoTherm ensure the even distribution of heat for an improved cooking experience.

Warming drawers are a popular accompaniment to a compact oven, the combination pairs well next to a single oven, and provides you with an extra tool to warm your plates or prove your dough.

RANGE COOKERS

Range cookers are the perfect choice for those looking to bring a touch of tradition into their kitchen.

These cookers are particularly well suited to classic kitchens, but with a wide range of size options, styles, and colour choices, there's plenty to suit modern designs too.

Induction and gas cooking options are available across range cookers.

Classic Collection is inspired by architect Guido Canali, this collection remains as timeless as ever thanks to its understated stainless steel design.

Victoria Collection is inspired by their very first 'Elisabeth' cooker produced in 1948, the Victoria range perfectly captures the essence of timeless classic design and exclusive aesthetics, thanks to Smeg's signature 1950's style branding and premium build quality.

HOBS

Our choice of hobs are sure to include the right appliance for you.

Gas hobs give you a range of flame cooking choices which deliver immediate heat for you to control.

Electric fuel sources give you a choice of ceramic or induction products, both of which have wipeable smooth surfaces.

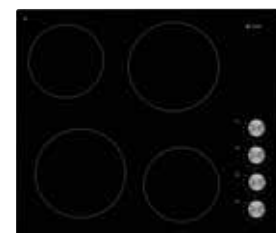

Induction cooking creates magnetic reactions that heat the pan you're cooking with rather than the surface of the appliance, and is often a preferred choice for families.

Vented Induction hobs help obtain a sleeker, more minimalist aesthetic, removing the need for an additional extraction unit.

The broad choice of widths we supply (60–90cm) means there's something for every kitchen.

COOKER HOODS

A cooker hood is an essential choice to improve the air quality in your home and the lighting conditions while you cook. An efficient extractor will remove steam, cooking odours, grease and smoke from your kitchen without intrusive noise.

Angled extractors provide a modern look, whereas a chimney has established itself as a familiar design choice for many.

REFRIGERATION

Your fridge is the one appliance that you use all day, every day, so choosing the right refrigeration for your lifestyle is essential to a good working kitchen.

Features such as fruit & vegetable drawers and SuperCool functions are designed keep your food fresher for longer and avoid food waste.

Considerations like capacity, location, style and energy efficiency will all have a bearing on your decision, but our wide range of built under fridges, freezers and integrated fridge freezer choices will help you select the right one.

REFRIGERATION

Larder fridges and freezers are popular choices for kitchens designed around storage. Their increased capacities help manage the needs of larger households.

The larger capacity of American and French style fridge freezers is also a popular choice for many households. Some of these items even come with options to be plumbed in, for a cold glass of water, or ice any time you need it.

Built under wine cabinets provide the perfect solution for storing wine bottles, and make an impressive impact on the layout of your kitchen, providing a centre piece and talking point for fellow wine connoisseurs.

DISHWASHING

Integrated dishwashers are the perfect choice for those who want to hide the appliance behind a kitchen door.

Slimline dishwashers are a great solution for those with smaller spaces, but who want to benefit from the energy efficiencies a dishwasher can provide. Full size dishwashers provide increased capacity by taking up larger cabinet space.

A selection of the dishwashers we offer include a cutlery tray for the easy loading of utensils which also frees up more space for crockery in the bottom tray.

LAUNDRY

Laundry choices are important considerations for kitchen or utility room designs. Our range of washing machines, washer dryers and tumble dryers provide you with ample choices and considerations.

Energy ratings review the efficiency of the product, and the load capacity will indicate whether it meets the needs of your household.

For smaller spaces, a washer dryer provides the best of both worlds, although a smaller drying capacity should be noted.

LIGHTING

Gone is the neon strip light that adorned every kitchen ceiling. Today's kitchens aren't complete without varied lighting, selected to create specific zones. Well-lit worksurfaces will aid your culinary masterpieces while feature lights can be positioned to provide a relaxed, ambient dining area. Plinth lights elevate the design of your new kitchen to sophisticated heights.

WALL TILES

Select wall tiles that will add colour, texture or pattern to your kitchen to complete the look.

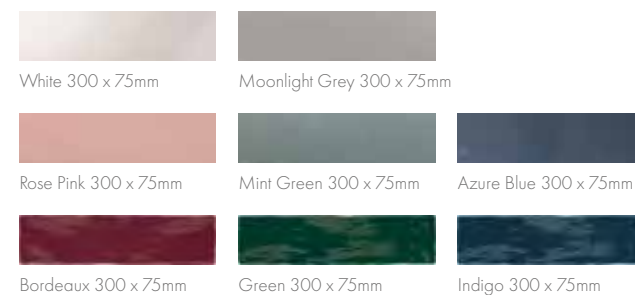

Arles

A pretty collection of glazed wall tiles in a delicate palette of muted tones, suited to contemporary and classic styles. Arles is available in four plain colours and three melanges of mixed vintage decors.

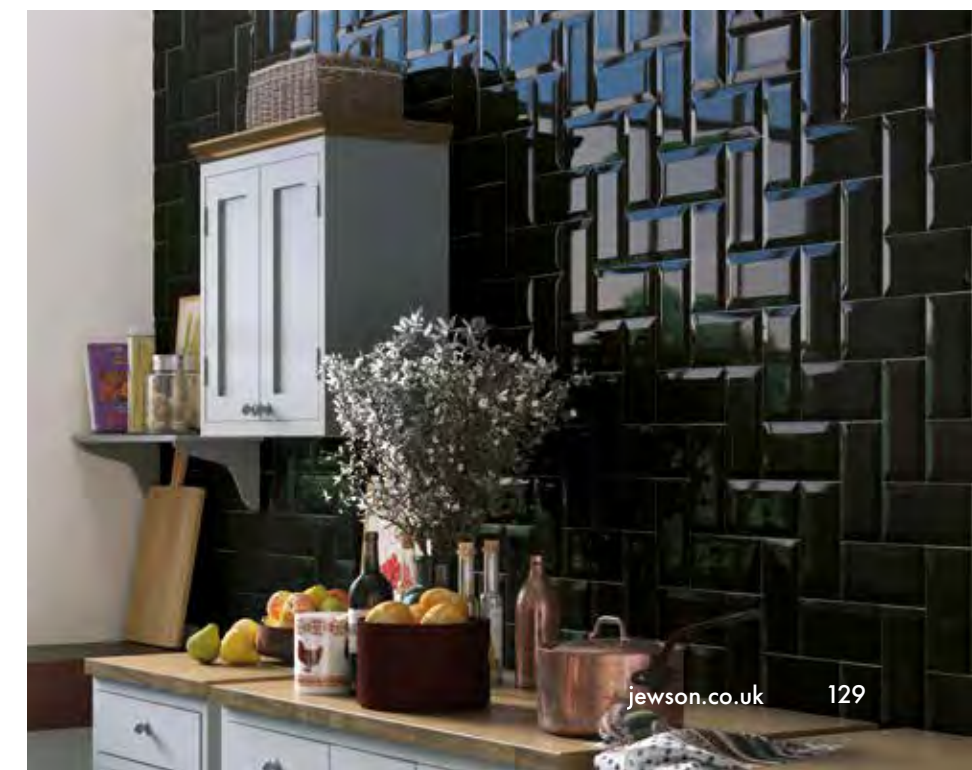

Poitiers

These slim brick tiles feature an undulating surface and glass-like glazes in on-trend colours like Azure Blue and Rose Pink for an opulent handcrafted look with a modern twist.

Metro Brick

Classic bevelled brick tiles are as popular as ever. Add some creativity with contrasting grout, a band of contrasting colour tiles or an unusual tiling pattern.

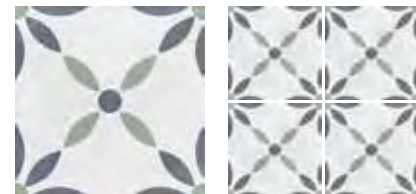

FLOOR TILES

Create a feature area with a bold pattern or opt for soothing tones with these great porcelains that mimic the natural hues of wood.

Havana

A neutral take on the popular statement pattern tile. Use alone for an elegant feature or mix the designs and plains for a harlequin pattern in on-trend blues and greys.

White Flower 223 x 223mm

4 tile pattern

Silver Ornate 223 x 223mm

FLOORING

Engineered Wood Flooring

Our collection of engineered wood flooring offers a beautiful range of stunning surfaces and finishes to suit both traditional and contemporary kitchens. With a broad choice of surface textures, finishes and colours including fashionable greys, smoked oaks and herringbones, you can add your style and elegance to any interior.

Vinyl Flooring

Vinyl flooring is the fastest growing flooring on the market. It offers a great alternative to traditional tiling, is quick and easy to install, durable and water resistant, so perfect for your dream kitchen.

With plenty of 'real wood' looks to choose from, Malmo™ Senses Registered Embossed luxury vinyl flooring replicates the look and feel of real wood like never before. With the texture perfectly in line with the visual pattern of the woodgrain, it combines the beauty of wood with the durability of vinyl.

Malmo™ luxury vinyl flooring offers a colour palette that includes classic oak through to on-trend greys and travertine and offers a high performing flooring option.

The BerryAlloc Pure Luxury Vinyl Tile Collection offers an environmentally friendly, lightweight product that is easy to install thanks to its DreamClick system. Hard wearing, durable and water resistant, the range offers fourteen tile and plank on-trend designs that are noise absorbing and kid-proof. Pure has a floor for every home.

Laminate Flooring

Offering laminate flooring for sophisticated tastes, our selection includes everything from designs that look and feel like a real hardwood floor to decorative tiles. Using the latest technology to create an authentic surface structure the range offers wood and tile effects across a spectrum of light to dark tones. Selected ranges also feature a moisture resistant system, making them perfect for use in kitchens.

ROOF WINDOWS

A healthy indoor climate with plenty of daylight and fresh air is essential to our well-being and comfort. We spend up to 90% of our time inside of buildings, whether at work or at home, but how often do we talk about the indoor climate?

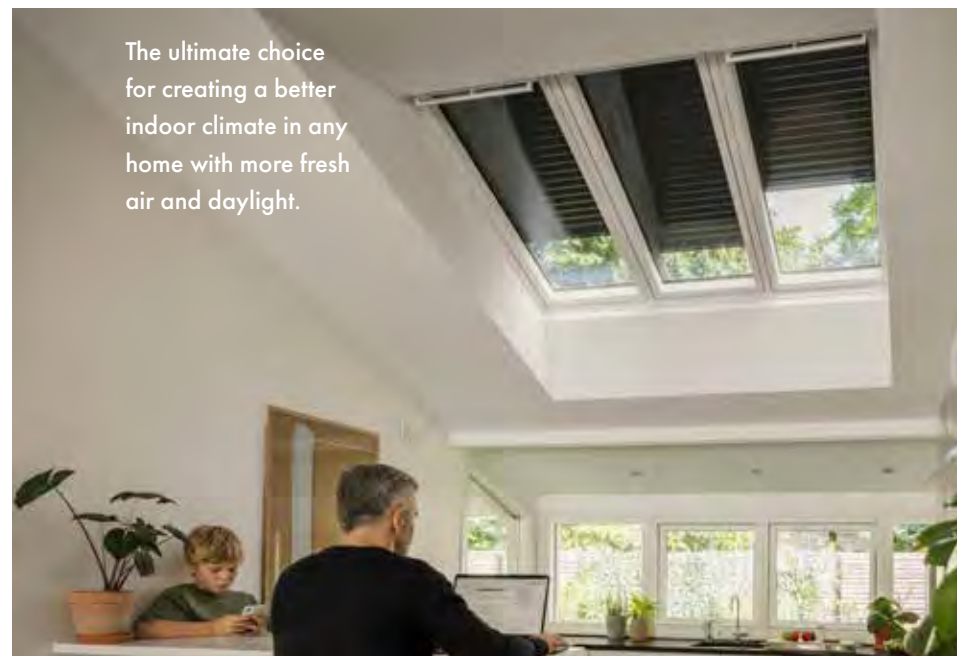

VELUX® gives you a choice of daylight solutions for all room types and needs. Including bi-fold doors and VELUX roof windows in your extension will enable you to bring daylight deeper into your home, making both your original space and your extension feel so much brighter.

Transform your room with more light

Wherever it's installed, the VELUX 3in1 roof window creates a stunning effect that can transform any room.

The VELUX 3in1 gives you even better daylight and fresh air with more flexibility. Its single frame with three sashes and slimmer profiles maximise views, while ensuring a simple and safe installation process.

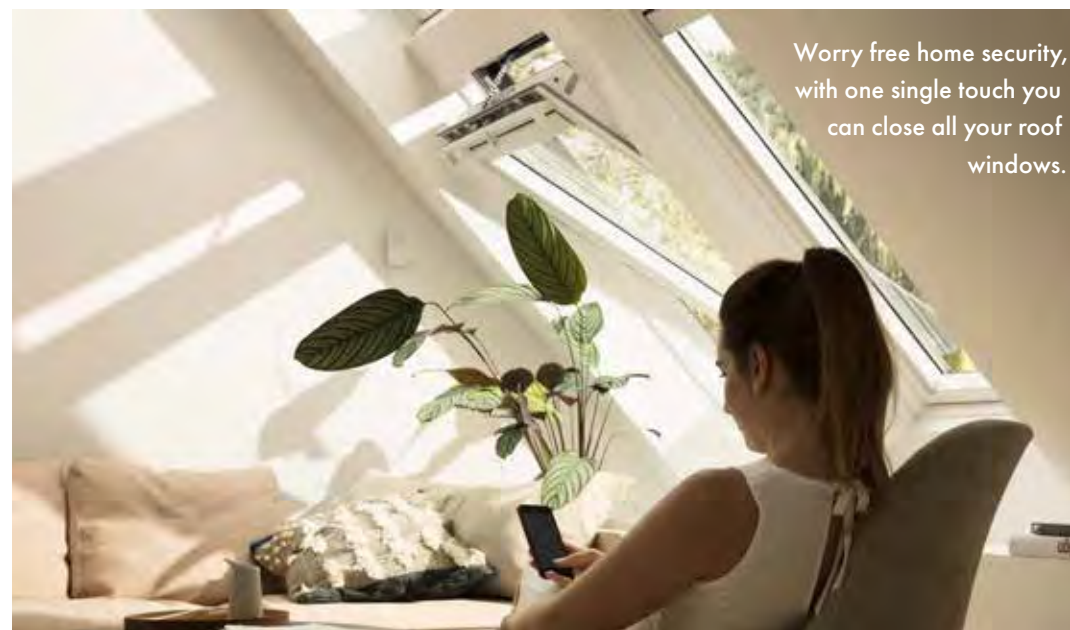

BENEFITS OF VELUX SOLAR & ELECTRIC ROOF WINDOWS

The ultimate choice for creating a better indoor climate in any home with more fresh air and daylight.

Rain sensor closes roof windows automatically in the event of rain.

Worry free home security, with one single touch you can close all your roof windows.

The integrated motor runs almost without a sound.

CONDITIONS OF SALE

Our conditions of sale are designed to help ensure the planning of your new kitchen goes as smoothly as possible. If you have any further queries about our service or require a full set of our conditions of sale, please contact your local showroom.

A design fee may be charged when you book an appointment. This will be deducted from the final balance. Once you have accepted the estimate, we'll confirm the expected delivery and installation dates.

Your kitchen is unique to you: Each kitchen is made to order. The illustrations, drawings and dimensions in our catalogues are intended as a guide only. When your estimate is produced, it is your responsibility to ensure that the information and specifications it contains meet your requirements.

Building work: If you are having any building work carried out as part of your kitchen project, this must be completed before we can undertake a site visit. New kitchens cannot be installed in a damp or freshly plastered space.

Timescales: The time needed to plan and install a kitchen varies from home to home. The ordering timescales we provide are a guide only. We will keep you informed of the progress of your kitchen.

Delivery: Your kitchen units can be delivered to your local branch for either collection or delivery (additional charges may apply). If you choose to have your units delivered – you will be advised of the delivery date by your Design Consultant. This may involve you having to store them for a day or so until installation commences.

Your appliances, accessories and worktops may be delivered separately during the week of your kitchen installation.

From date of delivery: Customers have 5 working days to check off and report shortages/damages, after this point they cannot be accepted.

Installation: Installing a kitchen is a skilled job. Whilst we will endeavour to support your fitter and get your kitchen complete during the planned installation period, remedial work may be required. Your fitter may make several return visits to your home in order to complete your kitchen.

Specialist worktops: To ensure a perfect fit, specialist worktops such as Granite and Corian are fitted after the main kitchen is fitted. Lead times for specialist worktops can range from two to eight weeks depending on the material chosen.

Once the specialist worktops have been manufactured, the specialist installer will return to fit them.

Payment: Non credit account customers are to pay a 35% non-refundable deposit on acceptance of our estimate. The balance will be payable two weeks before the delivery day. We accept payment by Switch, Delta, Mastercard, Visa, cash or cheque. Payment for painted to order kitchens and templated worktops to be made in full at time of purchase.

Prices are valid for 30 days from the date shown on your estimate.

Colours and designs: Due to photographic and printing processes some colours may not be a true representation of the product. Please see sample for actual colour. It may be necessary for us to change designs and specifications without prior notice.

Natural materials: Wood furniture that uses wood components or wood veneers will display natural grain and colour characteristics that may vary from what is featured in showroom displays and photographs. We cannot supply specially matched components.

Granite and other naturally occurring stone worktops will also display colour variations and may not match shop-floor samples exactly.

10-year guarantee: Our kitchen furniture shown in this brochure comes with a 10-year guarantee. For a full copy of our guarantee, please contact your local Showroom.

Kitchen care instructions

Our kitchens are for use in a domestic kitchen environment only. Please note your guarantee may be adversely affected if used for non-general domestic environments. With the appropriate care and maintenance our kitchens are designed to provide many years of reliable service.

General kitchen care

If using glass cleaner to clean your glass doors be careful not to damage the finish of the door and cabinet parts while cleaning. Do not spray glass cleaner directly on to the glass or cabinet parts as this may discolour the finish of your kitchen cabinets. Instead, spray a small amount of cleaner onto a lint free cloth or paper towel then wipe the glass.

Always wipe off excess moisture and be careful with extreme heat/steam sources, such as kettles, ovens and toasters. It is recommended that these heat/steam sources are not placed directly under wall

units when they are in use; they generate a higher level of heat and moisture than is often appreciated and can quickly and easily lead to damage of the furniture.

Don't open the door of the dishwasher immediately after the programme has ended, as exposure to heat and the high humidity increases the risk that the worktop or door may absorb moisture and swell.

As with all kitchen furniture the most common problems found occur as a result of excessive or prolonged exposure to heat and/or moisture. Always ensure that water is not left around sink areas as damage caused as a result is not covered by the guarantee. Never overload drawers or shelves.

Please note that after a period of time it is quite normal for the colouring of kitchen units to mellow in colour. This is not a manufacturing fault and is a result of exposure to light. This means that any additional parts subsequently ordered for your kitchen, or supplied as replacements under warranty may not be an exact colour match.

The colour of doors and drawer fronts may appear mismatched in colour. This apparent mismatch is sometimes the effect of differing light conditions within your kitchen, (known as metamerism). To check your doors and fascia you should place them side by side in natural daylight for comparison.

Care for solid wood and/or veneered kitchens

Dust kitchen cabinets with a soft lint free cloth. You can dampen the cloth slightly with water or a spray-type dust remover. Do not spray directly on to the kitchen furniture. Wipe dry all surfaces after cleaning. Avoid any agents that contain ammonia, alcohol, bleach or an abrasive.

Clean up spillages immediately using a damp cloth and mild detergent if necessary. Wipe dry with a clean soft cloth. Don't forget to wipe under the base cabinets and the edges of the cabinet doors.

Never use strong detergents, soap pads or steel wool on your kitchen cabinets. These harsh abrasives will mark the finish. Additionally, we recommend that you avoid the use of paste wax and polishes as the build up is difficult to remove and can leave a residue.

Avoid excessive, prolonged exposure to direct sunlight, high temperatures and high humidity as

these can cause damage to the finish of your cabinet.

Care for laminate, melamine and vinyl kitchens

Periodically clean the interior and exterior surfaces of the door using a soft, damp cloth. Wipe dry all surfaces after cleaning.

Use only cleaning agents that are intended for the materials used in your kitchen. Avoid any agents that contain ammonia, alcohol, bleach or an abrasive.

Clean up spillages immediately using a damp cloth and mild soap if necessary. Wipe dry with a clean soft cloth. Don't forget to wipe under the base cabinets and the edges of the cabinet doors.

Never use detergents, soap pads or steel wool on your kitchen cabinets. These harsh abrasives will mark the finish of your kitchen cabinets.

Avoid excessive, prolonged exposure to direct sunlight, high temperatures and high humidity as these can cause damage to the finish of your kitchen furniture.

Care for painted to order kitchens

It is important that all painted surfaces are handled with care. Our painted products are finished to a very high standard and if treated with the care and attention required they will provide many years of reliable service.

With all of the ranges, the kitchen units are a piece of furniture, and should be treated as such. Treat the kitchen doors with the same care and attention as you would any other hand-finished/painted item of furniture in your home.

The kitchen should be cleaned using a clean lint-free damp cloth with mild household detergent. Any form of furniture polish or other cleaning products should be avoided. Never use any abrasive pads or abrasive cleaners on the furniture. Spills and condensation on either the carcass or the fascias/panels should be cleaned and dried immediately.

Installation instructions

Installation is only to be carried out by a competent person. Check the suitability of the wall/ceiling before installation commences.

Check that the fastening devices will withstand the forces generated.

FAILURE TO FOLLOW THESE INSTRUCTIONS MAY INVALIDATE YOUR GUARANTEE.

QUESTIONS TO ASK SHOWROOM TEAM

If you're local to the showroom we provide a free measure up as part of the design service, or you can bring in a plan that we can work off.

Make sure you include the following:

- position of doors, windows (including height to sill)
- soil pipes
- rising main
